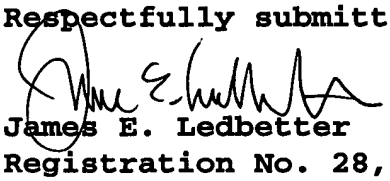
REMARKS

This Amendment amends the title to "PORTABLE EQUIPMENT WITH BACKUP BATTERY CHARGING FUNCTION." The preambles of the claims have been amended to conform to this new title. Support for these changes is located in the original application at page 1, lines 13 and 22, which refers to portable equipment and a device of the portable equipment which uses the backup battery, at page 1, lines 8-10, which refers to the use of the backup battery charging circuit in an apparatus having a memory, a microcomputer, or a clock function (e.g., in portable equipment), and at page 3, line 18, *et seq.*, which indicates that the invention solves the problem in the prior art of portable equipment having a backup battery charging circuit with the problems described at page 1, line 13 - page 3, line 15.

During a telephone interview on September 21, 2005, Examiner Tibbits agreed that the present amendments are supported by at least the above-noted portions of the original disclosure.

Entry of this Amendment is respectfully requested.

Respectfully submitted,



James E. Ledbetter
